

8 DECENT WORK AND ECONOMIC GROWTH

Wood waste recycling and circular economy approach

WIND FARM: RED DIRT

Red Dirt wind project (300 MW) in Oklahoma (USA) during E&C phase implemented a Construction Waste Management Program (CWMP) in partnership with BOP contractor, RES Americas (RES). The partners store and provide wood waste from project to EcoWood Facility in Norman, Oklahoma for processing, recycling and beneficial use applications for schools and businesses and local communities in general.
